

# Photography and Personal Vision Workshop

*at Focus Ranch*

**Workshop dates: June 23-29, 2019**  
(Sunday afternoon through Saturday breakfast)

presented by:

**T**his summer's Photography and Personal Vision Workshop is again being held at **Focus Ranch**, a real working cattle ranch, located on the western Colorado and Wyoming border in a section of the Northern Rocky Mountains about 50 miles northwest of Steamboat Springs. The ranch headquarters are nestled in the Upper Little Snake River Valley, surrounded by the peaks of the Sierra Madre Mountain range. Early summer is a beautiful time at the ranch. Landscapes are lush green, punctuated with seasonal flowers -- Lupine, Indian Paintbrush, Wild Geraniums and Phlox, to name a few. The Little Snake River rapidly flows, breaking the stillness of the ranch.

This spectacular ranch location lends itself perfectly to the "focus" of our workshop, which is to become more aware of your unique way of seeing the world and yourself. You will receive both group and individual instruction in the field and the classroom. Additionally, Karen will suggest specific visual exercises that will challenge you to try new and fun techniques with your camera that will enrich your creative spirit.

In addition to the photography sessions, you'll enjoy delicious meals, comfortable lodging and opportunities to participate in various optional activities, including horseback riding or hiking. The natural beauty of the area, old ranch buildings, cows and their calves, other ranch animals, wildlife and off-ranch excursions all offer unlimited photographic possibilities and inspiration. It is these sights and many more that we invite you to experience through the lens of your camera as well as during the available ranch activities.

The workshop is open to all skill levels, from more casual to advanced photographers hoping to expand their vision. Participants need to be comfortable with the basic operation of their cameras and, at the minimum, have an understanding of the relationship between ISO, aperture and shutter speed settings as you will be working mostly on the development of personal vision. Additionally, Karen will be offering **OPTIONAL** Creative iPhoneography sessions for participants with an iPhone or iPad. What fun!

**Ranch stay including Photo Workshop: \$2695 pp**  
*(Reserve your place by February 1st and pay \$2595. Save \$100!)*

**Price includes:**

Six nights lodging  
All meals

Phone: (970) 583-2410 or email roundup@focusranch.com

**Karen Schulman:** A sensitive, professional photographer and educator, Karen believes that participating in a photo workshop or tour is about more than making great photographs. It's a journey of self-discovery. Karen's photography appears in numerous publications as well as private and corporate art collections. Karen is a Lifetime Member of the American Society of Media Photographers, member of The Texas Photographic Society, the North American Nature Photography Association and the Steamboat Springs Arts Council.

**Focus Adventures**, established in 1985, is a privately owned company located in Steamboat Springs, Colorado. Owner Karen Schulman has been an educator since 1968 and a photographic artist for 37 years. The company originated in Los Angeles, California, and relocated to Steamboat Springs in 1991. Focus Adventures has been recognized in numerous publications as a leader in the field of photographic instruction.

*I have worked with Karen for 10 years with great results. She has been an inspiring teacher and mentor. I would recommend her to anyone wanting to develop their creativity.*

Terry Riley, DDS  
Iowa City, Iowa
